Greaves Gensets Power Hospitals in COVID times

More than 225+ Gensets deployed at several hospitals in the country

Mumbai: July 7th, 2021- Greaves Power, part of a large diversified business conglomerate Greaves Cotton Limited, has been actively supporting the healthcare sector in these unprecedented times by setting up auxiliary power backup solutions at various Covid hospitals across the country. The company has deployed 225+ Gensets at several hospitals in the country, ranging from 10 kVA to 1250 kVA.

Greaves has a wide range of Gensets, which are used in different kinds of operations- supporting routine power backup at quarantine facilities to providing power backup to critical facilities. Greaves Gensets have been deployed across diverse usage from powering domestic usage to industrial applications to data centers to hotels, hospitals, airports, gas stations, and even restaurants, as a strong and reliable power backup solution.

The IoT-powered Greaves smart Genset under Greaves Genius series commands better control in operations and delivers power output with better efficiency and saving on fuel consumption. Owing to strong performance, reliability, and higher savings, Greaves Gensets are preferred by contractors and B2B customers.

Speaking on this occasion, Sunil Shahi, CEO, Non-Automotive Business, Greaves Cotton Limited, said, *“We believe in enhancing productivity, improving the lives of customers, and enabling them to save more. This is a time where we all have to contribute and bring back the economy on track. In an initiative to utilize our solutions at their maximum capacity and support the affected communities, we are deploying our gensets in multiple hospitals to provide uninterrupted power supply for effective management of COVID patients.”*

Greaves Genius genset has advanced features, which send out alerts for fuel refills and let customers monitor the fuel usage meticulously. Greaves Genius detects fuel theft and allows the customer to see the cost per unit of the electricity generated. It also helps in predictive & preventive maintenance enabling efficient on-ground operations.

END
