INDEPENDENT AUDITOR'S REPORT

The Shareholders GREAVES COTTON MIDDLE EAST (FZC)

Report on the financial statements

We have audited the accompanying financial statements of **GREAVES COTTON MIDDLE EAST** (**FZC**), which comprise the statement of financial position as at 31 March 2016, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information set out on pages 3 to 21.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards, and for their compliance with Implementation Procedures issued by the Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

(continued)

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of **GREAVES COTTON MIDDLE EAST (FZC)** as at 31 March 2016, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Emphasis of matter

Without qualifying our opinion, we draw attention to Note 2 (b) to the financial statements, which states that at the reporting date, the company has accumulated losses of AED 2,444,109. Further, during the year, the management has significantly decreased the business operations. These conditions indicate a material uncertainty that may cast significant doubt on the company's ability to continue as a going concern. However, the shareholders have agreed to continue with the operations of the company and have agreed to provide continuing financial support to enable the company to discharge its liabilities as and when they fall due. Accordingly, these financial statements have been prepared on a going concern basis.

Report on other legal and regulatory requirements

The net assets of the company are below 75% of its share capital, and the directors are required to intimate the Sharjah Airport International Free Zone Authority and take steps to remedy the situation in accordance with the Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995.

We confirm that except for the matter stated above, the financial statements comply with Implementation Procedures issued by the Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995; we have obtained all the information and explanations necessary for our audit and proper books of account and other records have been maintained in accordance with the said regulation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

1. LEGAL STATUS AND BUSINESS ACTIVITY

- a) GREAVES COTTON MIDDLE EAST (FZC) is a Free Zone Company incorporated on 16 May 2004 in the Sharjah Airport International Free Zone, Sharjah, United Arab Emirates pursuant to Law No. 2 of 1995 of H.H. Sheikh Sultan Bin Mohammed Al Qassimi, The Ruler of Sharjah. The registered office is P. O. Box 8241, Sharjah, United Arab Emirates.
- b) The company has a general trading license no.02297, issued by the Sharjah Airport International Free Zone Authority, Sharjah, United Arab Emirates and trades in gensets, spares and other related materials.
- c) The parent company is Greaves Leasing Finance Limited. However, Greaves Cotton Limited is considered to be the ultimate parent company as Greaves Leasing Finance Limited is a wholly owned subsidiary of Greaves Cotton Limited.

2. BASIS OF PREPARATION

a) Statement of compliance

The financial statements are prepared in accordance with International Financial Reporting Standards issued or adopted by the International Accounting Standards Board (IASB) and which are effective for accounting periods beginning 1 January 2015 and the laws of Sharjah Airport International Free Zone Authority.

b) Basis of measurement

The financial statements are prepared using historical cost.

Historical cost is based on the fair value of the consideration given to acquire the asset or cash or cash equivalents expected to be paid to satisfy the liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

As at the reporting date, the company has accumulated losses of AED 2,444,109. Further, during the year, the management has significantly decreased the business operations. These conditions indicate a material uncertainty that may cast significant doubt on the company's ability to continue as a going concern. However, the shareholders have agreed to continue with the operations of the company and have agreed to provide continuing financial support to enable the company to discharge its liabilities as and when they fall due. Accordingly, these financial statements have been prepared on a going concern basis.

c) Adoption of new International Financial Reporting Standards

Standards and interpretations effective for the current year

The International Financial Reporting Standards, amendments thereto and Interpretations that became effective for the current reporting period and which are applicable to the company are as follows:

- Annual Improvements 2010–2012 Cycle
 - o IFRS 13: Fair value measurement: Short-term receivables and payables The amendment to IFRS 13 clarifies in the Basis for Conclusions that short-term receivables and payables with no stated interest rates can be measured at invoice amounts when the effect of discounting is immaterial. This amendment to IFRS 13 has no impact on the company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

IAS 24: Related Party Disclosures: Key management personnel
 Clarifies that an entity providing key management personnel services to the reporting entity or to the parent of the reporting entity is a related party of the reporting entity.

New and revised IFRSs in issue but not yet effective

The following International Financial Reporting Standards, amendments thereto and Interpretations that are assessed by management as likely to have an impact on the financial statements, have been issued by the IASB prior to the date the financial statements were authorised for issue, but have not been applied in these financial statements as their effective dates of adoption are for future accounting periods.

- Amendments to IAS 16: Property, Plant and Equipment and IAS 38: Intangible Assets: 'Clarification of Acceptable Methods of Depreciation and Amortisation (1 January 2016) The amendments provide additional guidance on how the depreciation or amortisation of property, plant and equipment and intangible assets should be calculated. The amendments to IAS 16 prohibit entities from using a revenue based depreciation method for items of property, plant and equipment. The amendments to IAS 38 introduce a rebuttable presumption that revenue is not an appropriate basis for amortisation of intangible asset. This presumption can only be rebutted in very limited circumstances.
- Annual Improvements 2012–2014 Cycle (1 January 2016)
 Amendments to IAS 1 Disclosure Initiative (1 January 2016)
 The amendments to IAS 1 Presentation of Financial Statements clarify existing IAS 1 requirements in relation to :
 - The materiality requirements in IAS 1
 - That specific line items in the statement of profit or loss and other comprehensive income and the statement of financial position may be disaggregated
 - That entities have flexibility as to the order in which they present the notes to financial statements
 - That the share of other comprehensive income of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss
- IFRS 9: Financial instruments: (1 January 2018)
 IFRS 9 requires financial assets to be classified into two measurement categories: those measured at fair value and those measured at amortised cost. The determination is made at initial recognition. For financial liabilities, the standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the profit or loss, unless this creates an accounting mismatch.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

IFRS 15: Revenue from Contracts with Customers (1 January 2018)

The International Accounting Standard Board (IASB) has published its new revenue Standard, IFRS 15 'Revenue from Contracts with Customers'. IFRS-15 specifies how and when an IFRS reporter will recognise revenue as well as requiring such entities to provide users of financial statements with more informative, relevant disclosures. The standard supersedes IAS 18 'Revenue', IAS 11 'Construction Contracts' and a number of revenue-related interpretations. Application of the standard is mandatory for all IFRS reporters and it applies to nearly all contracts with customers: the main exceptions are leases, financial instruments and insurance contracts.

IFRS 16: Leases (1 January 2019)

IFRS 16 introduces a number of significant changes to lease accounting model. It eliminates the classification of leases as either operating lease or finance lease for a

eliminates the classification of leases as either operating lease or finance lease for a lessee and instead all the leases are treated similar to a finance lease. The standard however, does not require an entity to recognise assets and liabilities for a) Short- term leases (for a period of twelve months or less) and b) Leases of low value assets.

d) Functional and presentation currency

The financial statements are presented in UAE Dirhams ("AED") which is also the company's functional currency.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted, and which have been consistently applied, are as follows:

a) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The cost less estimated residual value, where material, is depreciated from the date the asset is available for use until it is derecognised, using the straight-line method over the estimated useful lives of the assets as follows:

Furniture, fixtures and office equipment 5 years Motor vehicles 4 years

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset as appropriate only when it is probable that future economic benefits associated with the expenditure will flow to the company and such cost can be measured reliably. Such cost includes the cost of replacing part of the property, plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the company recognises such parts as individual assets with specific useful lives and depreciates them accordingly. The carrying amount of replaced parts is derecognised.

All other repairs and maintenance costs are charged to profit or loss during the financial period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

An assessment of depreciation method, useful lives and residual values is undertaken at each reporting date and, where material, if there is a change in estimate, an appropriate adjustment is made to the depreciation charge.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These are recognised within 'other operating income/expenses' in profit or loss.

b) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost, in the case of inventories of gensets is arrived at using the specific identification method and for spares using the First-In First-Out (FIFO) method. Cost comprises invoice value plus applicable landing charges less discounts. Net realizable value is based on estimated selling price less any estimated cost of disposal.

c) Staff end-of-service benefits

Provision is made for end-of-service benefits payable to non-UAE national employees at the reporting date in accordance with the local labour laws.

d) Revenue

Revenue is recognised to the extent that it is probable that economic benefits will flow to the company and revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, returns and other similar allowances.

Sale of goods

Revenue is recognised when persuasive evidence exists, usually in the form of an executed sales invoice, that significant risks and rewards of ownership have been transferred to the buyer.

Commission income

Commission income is recognised on the basis of agreements with suppliers based on the percentage of direct sales made by such suppliers to the customers in the company's territory.

Consultancy fees

Consultancy fees represents fees received from services rendered and is recognised as and when the service is rendered.

e) Leases

Leases under which substantially all the risks and rewards of ownership of the related asset remain with the lessor are classified as operating leases and the lease payments are charged to profit or loss on a straight-line basis over the period of the lease.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

f) Foreign currency transactions

Transactions in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling on the date of the transactions.

Monetary assets and liabilities expressed in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling at the reporting date.

Gains or losses resulting from foreign currency transactions are taken to profit or loss.

g) Borrowing costs

Borrowing costs are recognized as an expense in the period in which they are incurred except those that are attributable to the acquisition and construction of an asset that necessarily takes a substantial period to get ready for its intended use ("qualifying asset"). Such borrowing costs are capitalised as part of the related qualifying asset upto the date the qualifying asset is ready for use.

h) Provisions

A provision is recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably.

i) Financial instruments

Financial assets and financial liabilities are recognised when, and only when, the company becomes a party to the contractual provisions of the instrument.

Financial assets are de-recognised when, and only when, the contractual rights to receive cash flows expire or when substantially all the risks and rewards of ownership have been transferred.

Financial liabilities are de-recognised when, and only when, they are extinguished, cancelled or expired.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

Financial assets

Loans and receivables

Trade and other receivables

Trade and other receivables are classified as loans and receivables and stated at cost, as the interest that would be recognised from discounting future cash receipts over the short credit period is not considered to be material. These are reduced by appropriate allowances for estimated irrecoverable amounts.

Related party receivables

Related party receivables are classified as loans and receivables and stated at cost, as the interest that would be recognised from discounting future cash receipts over the short credit period is not considered to be material. These are reduced by appropriate allowances for estimated irrecoverable amounts.

Cash and cash equivalents

Cash and cash equivalents comprise cash and bank current accounts.

Financial liabilities

At amortised cost

Trade and other payables

Trade and other payables are stated at cost, as the interest that would be recognised from discounting future cash payments over the short credit period is not considered to be material.

Interest-bearing liabilities

Interest-bearing liabilities are initially recognized at fair value, net of transaction costs incurred. Subsequently these are stated at amortised cost using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating the interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability.

Equity

Equity instruments issued by the company are recorded at the value of proceeds received towards interest in share capital of the company.

Impairment of financial assets

All financial assets, except for those at fair value through profit or loss, are assessed for indicators of impairment at each reporting date. Impairment losses and reversals thereof are recognised in profit or loss.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

j) Fair value measurement

The establishment measures financial instruments, such as financial assets at fair value through profit or loss and available for sale financial assets, and non-financial assets such as property plant and equipment, investment properties, at fair value at each reporting date. The establishment also discloses the fair value of financial instruments measured at amortised cost.

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their best economic interests.

The fair value measurement of a non financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

4. SIGNIFICANT JUDGMENTS EMPLOYED IN APPLYING ACCOUNTING POLICIES

The significant judgments made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

Impairment

At each reporting date, management conducts an assessment of property, plant and equipment and all financial assets to determine whether there are any indications that they may be impaired. In the absence of such indications, no further action is taken. If such indications do exist, an analysis of each asset is undertaken to determine its net recoverable amount and, if this is below its carrying amount, a provision is made. In the case of loans and receivables, if an amount is deemed irrecoverable, it is written off to profit or loss or, if previously a provision was made, it is written off against the provision. Reversals of provisions against loans and receivables are made to the extent of the related amounts being recovered.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

Key assumptions made concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are as follows:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

Carrying values of property, plant and equipment

Residual values are assumed to be zero unless a reliable estimate of the current value can be obtained for similar assets of ages and conditions that are reasonably expected to exist at the end of the assets' estimated useful lives.

Inventory provisions

Management regularly undertakes a review of the company's inventory, stated at AED 447,962 (previous year AED 1,490,775) in order to assess the likely realisation proceeds, taking into account purchase and replacement prices, technological changes, age, likely obsolescence, the rate at which goods are being sold and the physical damage. Based on the assessment assumptions are made as to the level of provisioning required.

Impairment of loans and other receivables

Management regularly undertakes a review of the amounts of loans and receivables owed to the company either from third parties (see note 8) or from related parties (see note 9) and assesses the likelihood of non-recovery. Such assessment is based upon the age of the debts, historic recovery rates and assessed creditworthiness of the debtor. Based on the assessment assumptions are made as to the level of provisioning required.

Impairment

Assessments of net recoverable amounts of property, plant and equipment and all financial assets other than loans and receivables (see above) are based on assumptions regarding future cash flows expected to be received from the related assets.

Staff end-of-service benefits

The company computes the provision for the liability to staff end-of-service benefits stated at AED 120,642 (previous year AED 278,031), assuming that all employees were to leave as of the reporting date. The management is of the opinion that no significant difference would have arisen had the liability been calculated on an actuarial basis as salary inflation and discount rates are likely to have approximately equal and opposite effects.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

Management of risk

The management conducts and operates the business in a prudent manner, taking into account the significant risks to which the business is or could be exposed.

The primary risks to which the business is exposed, which are unchanged from the previous year, comprise credit risks, liquidity risks and market risks (including currency risks, cash flow interest rate risks and fair value interest rate risks).

Credit risk is managed by assessing the creditworthiness of potential customers and the potential for exposure to the market in which they operate, combined with regular monitoring and follow-up.

Management continuously monitors its cash flows to determine its cash requirements in order to manage exposure to liquidity risk.

The company buys and sells goods and services in foreign currencies. Exposure is minimised where possible by denominating such transactions in US dollars to which the UAE Dirham is pegged.

Exposures to the aforementioned risks are detailed below:

Credit risk

Financial assets that potentially expose the company to concentrations of credit risk comprise principally bank accounts, trade and other receivables and amounts due from a related party.

The company's bank accounts are placed with high credit quality financial institutions.

Amount due from a related party and trade and other receivables are stated net of the allowance for doubtful recoveries. At the reporting date, the company's maximum exposure to credit risk from such receivables situated outside the UAE is as follows:

	Due from related parties		Trade receivables and other receivables	
	2016	2015	2016	2015
	AED	AED	AED	AED
India	222,688	48,072		
Other GCC Countries				831,325

At the reporting date there is no significant concentration of credit risk from individual customer (previous year 63% due from four customers).

At the reporting date, 100% of amount due from related parties are due from two parties (previous year 100% due from one related party).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

Significant concentrations of credit risk by industry are as follows:

	2016	2015
	AED	AED
Trading industry	10,560	1,306,513
Construction industry		167,130
Service industry		151,698
Manufacturing industry		179,782

Currency risk

There are no significant currency risks as substantially all financial assets and financial liabilities are denominated in UAE Dirhams or US Dollars to which the Dirham is fixed.

Reasonably possible changes to exchange rates at the reporting date are unlikely to have had a significant impact on profit or equity.

Interest rate risk

The company is not exposed to any significant interest rate risk.

Fair values

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of the company's financial assets and financial liabilities which are required to be stated at cost or at amortised cost approximate to their carrying values.
