

Ampere, fastest growing E-Mobility brand registers almost 6X growth over Dec'20 last year

~Greaves Electric Mobility strengthens its position as a leader with powerful performance in Dec'21

~E3W business outperforms its historic records

Mumbai, January 02, 2022: Greaves Electric Mobility, a wholly owned electric mobility subsidiary of Greaves Cotton Ltd, begins new year 2022 with sales of more than 10,000 units in the month of December 2021- This includes both electric 2-wheelers and 3-wheelers segments.

Greaves Electric Mobility strengthens its position as a market leader in both E-2W and E-3W segments, with Ampere reporting a record growth of almost 6X revenue growth in Dec'21 versus same month last year and E3W business grew by 101% in volume terms.

Successful monthly results can be attributed to Ampere's recent announcement of the launch of its EV Mega site, which is a testimony of customer's trust & faith in the brand. It's fast growing retail expansion with complete life cycle support for affordable & reliable rides, is making it a preferred choice across varied customer segments- B2B & B2C.

The recently launched variant of comfortable large family e-scooter, Magnus EX, is also gaining increased preference amongst consumers. In the wake of recent Petrol price hike, consumers selected Magnus EX, which offers more than 100kms range on a single charge with an advanced detachable lithium-ion battery.

Speaking on December month sales performance of EV business and overall how 2021 has been, **Roy Kurian, COO, Ampere Vehicles said,** "With Ampere, our e2W segment has achieved good success and December'21 sales performance is a testament of the same. Our recent launch of Magnus EX is gaining wide acceptance from customer across the nation."

Q3 was significant from many perspectives for Greaves Electric Mobility with the company acquiring 100% stake in electric 3-wheeler company ELE (e-rickshaws) and completing acquisition of 26% stake in another electric 3-wheeler company MLR Auto (Teja brand) along with the launch of Ranipet mega EV factory, one of the biggest EV factories in the country. Ampere vehicles have received significant demand in the market.
